

Google Live Stream for Video Broadcasts

For students and parents

Google Live Stream provides a safe and secure way for your teachers to broadcast videos to you and your classmates in real-time. Google Live Stream is an approved CPS tool and is in compliance with our [Acceptable Use Policies](#).

This guide provides step-by-step instructions on how to watch a Google Live Stream video.

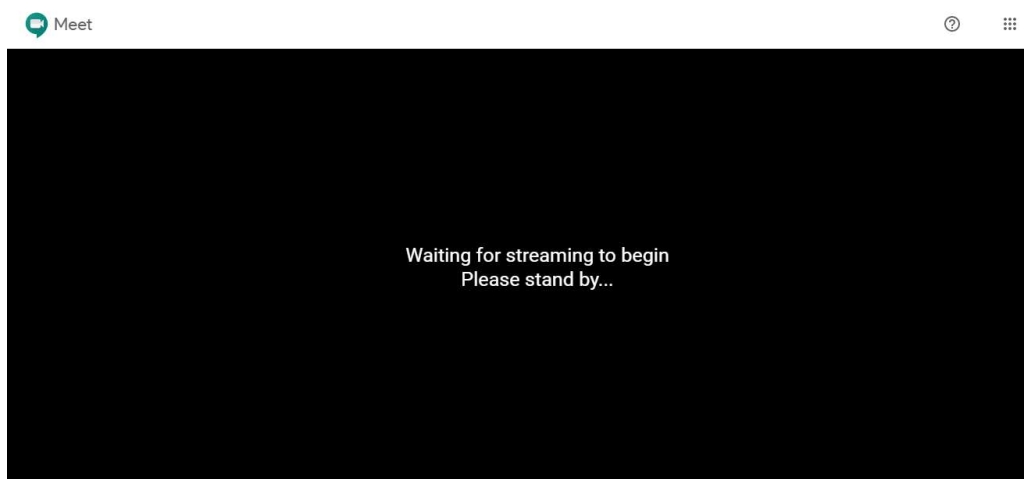

Watch a Google Live Stream

1. After you log in to your CPS account, click on the link your teacher gives you in Google Classroom, your email or in Hangout Chat.

NOTES:

- You must be logged in to your CPS account in order to access the Google Live Stream.
- If a student has never set up a CPS account, please click [here](#) for instructions on how the student can claim their account.
- If you forget your CPS password, click [here](#) for instructions on how to reset your password.

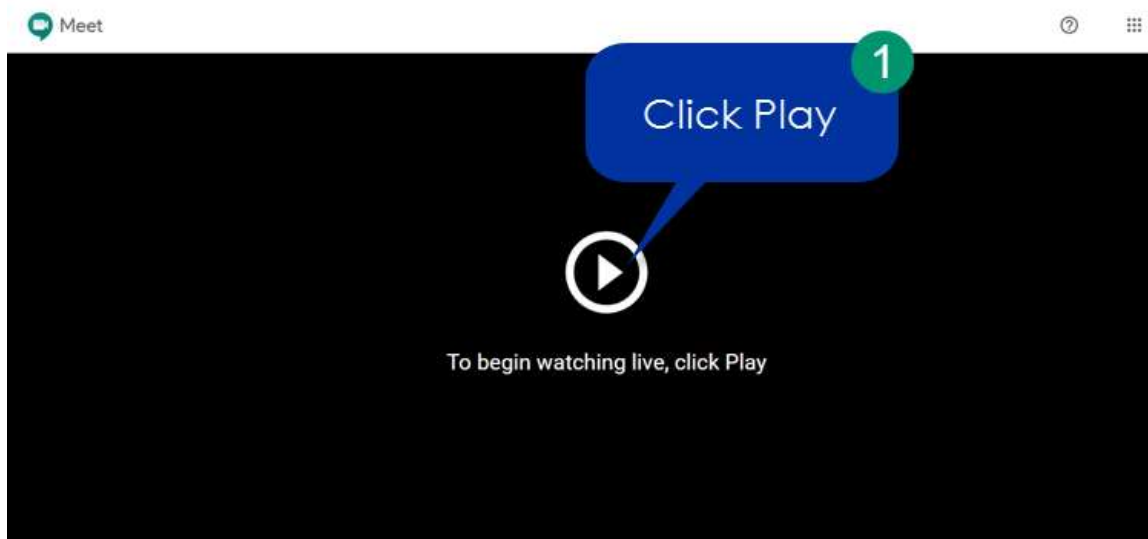

If the Google Live Stream has not started yet, you will see a message that reads, “**Waiting for streaming to begin Please standby...**” like the picture below.

[Back to top](#)

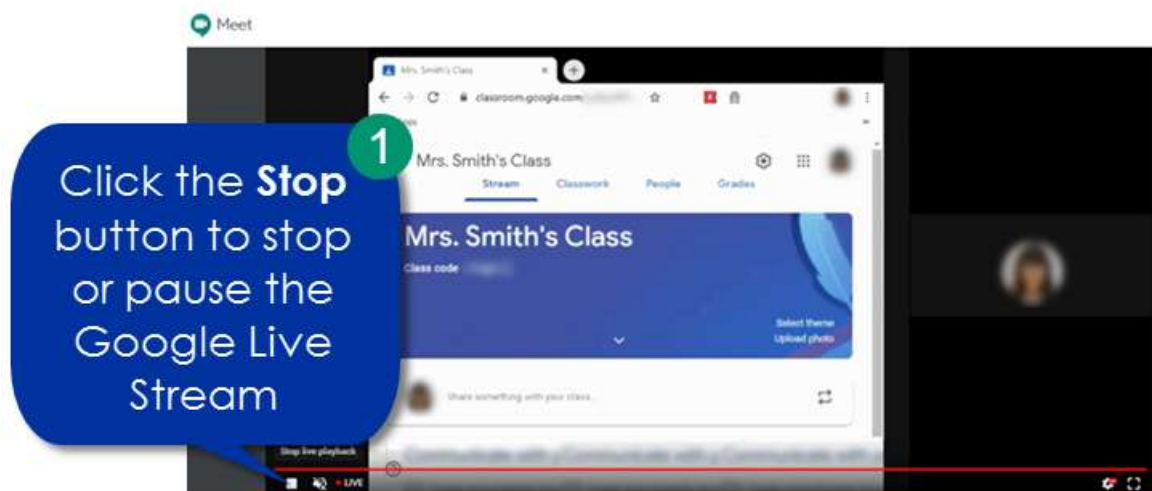

When your teacher starts the Google Live Stream, you will see the screen below:

1. Click the **Play** button to start watching the live broadcast.

After you click **Play**, you will see the Google Live Stream video your teacher is presenting like the pictures below.

1. To stop and pause the Google Live Stream, click the **Stop** button.

NOTE: Google Live Stream is a one-way communication tool. You will not be able to interact with your teacher via the Google Live Stream. If you have questions or need to contact your teacher, you should message them using Google Hangouts Chat or their CPS email. Click [here](#) for instructions on how to use Google Hangouts Chat.

2. To resume playing the Google Live Stream, click the **Play** button.
3. To exit the Google Live Stream video, click the **X**.
